Introduction

This document demonstrates the use of a number of advanced page layout features to produce an attractive and usable document inspired by the Tufte handout style and the use of Tufte’s styles in RMarkdown documents (Xie, Allaire, and Grolemund 2018). The Tufte handout style is a style that Edward Tufte uses in his books and handouts. Tufte’s style is known for its extensive use of sidenotes, tight integration of graphics with text, and well-set typography. Quarto¹ supports most of the layout techniques that are used in the Tufte handout style for both HTML and LaTeX/PDF output.
